A
Structural connectivity (Kunst et al., 2019)
region to region connectivity strength (10-log scale)
B
Functional connectivity (cRBM, average of 8 fish)
region to region connectivity strength (10-log scale)
C
cRBM vs structural connectivity
r_S = 0.39, P < 10^-26
Functional connectivity (10-log scale)
Structural connectivity
D
cRBM functional connectivity distributions
Non-zero struct.
Zero struct.
Probability DF
Evidence
Functional connection
